HOW WE ARE DIFFERENT !

- ✓ Our software has special and noticeable features that makes your school different from others enhancing your safety and management.
- ✓ Our motto is to make you special and technically strong.

RF-ID ATTENDANCE

This attendance system saves time as well leaves no spaces for errors. Any Student or staff can apply the attendance. Need to maintain the attendance on a register alone is no more a necessity. Teacher/Student can easily view their monthly/weekly records on single click.

E- LIBRARY

Students can study online in their app that they can utilize at any time. There is no shortage of books in this library. Any book unavailability can be fulfill by the use of our e-library.

SET-PAPERS

Teachers can easily set papers for the exams. We are providing a readymade format to generate the Examination Question papers. Language selection for Exam papers is also optional. This is very user friendly and one of our best panels

GOVERNMENT RECORDS

Important documents to be provided to the Government, can be downloaded from here. The readymade single click downloads such as mapping list, records of EWS/NON-EWS students, students list and contact no. etc on specially selected filters eases the workload that usually takes hours.

TIMETABLE

Daily time table is useful for parents, teachers and students. Parents/students can arrange their bags according to timetable. And teachers will look to go in class. Management can allot a teacher if anyone is absent.

BUS TRACKING

This facility is very helpful for the parents, they can track the bus of their child, easily pick the children on time, can't be wait on bus stop.

RECYCLE BIN

Recycle bin is for the details that are mistakenly deleted during work. In need of deleted software/Details, you can easily back up it.
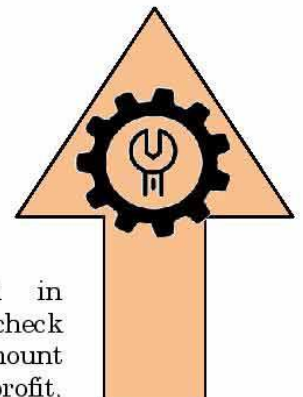

SMS FACILITY

Parents will know the fees submitted with the SMS notification. Also they will receive SMS when their ward are absent. Administration can Broadcast Important quick messages to parents all at once.

LEDGER

This is provided in account panel to check the total amount credit/debit. Loss/profit, received/pending information.
